

# Luna Parker

Student, Developer and Problem Solver

Full-stack developer with 8 years' experience building web applications for universities and large Canadian organizations. Strong communicator with attention to detail and a track record of leading projects from scope to delivery. Available for a 4-month co-op term in Fall 2026 to contribute to an innovative organization.

## Experience

### Software Developer Co-op, Ontario College Application Service

GUELPH, ON – MAY 2024-AUGUST 2024

- Refactored production .NET applications to improve user experience and reduce technical debt
- Partnered with project managers, lead developers, and cross-functional teams to ship new features
- Delivered project milestones on time using Scrum and Agile workflows in a fast-paced enterprise environment

### Senior Web Developer, Digital Chaos Inc

ELORA, ON – JUNE 2020-AUGUST 2022

- Led end-to-end development of the company website rebuild (DigitalChaos.ca) and major client builds for Canadian universities
- Built secure, performant web applications using Laravel and WordPress (PHP, SCSS, MySQL) for large Canadian organizations including universities
- Drove adoption of modern tooling (Git, Docker, Vue.js) and partnered with PMs on project scoping, estimates, and tech stack recommendations

### Founder, Shy Owl Studios

ONTARIO – 2018-PRESENT

- Deliver agency contracts (e.g., Intelligent Computer Systems) and consult with clients on goals, budgets, and requirements
- Build secure, AODA-compliant Laravel/WordPress sites with custom client portals (EYOLF, Jarvis Ryan)
